

01 PROFILE

Infrastructure Specialist and **Technical Lead** passionate about solving complex infrastructure, networking, and automation challenges. Solid experience in **hybrid environments** (on-premises and cloud), virtualization, networking, and observability. Focused on building **efficient, secure, and scalable** environments with modern Cloud (AWS) practices, smart monitoring (Zabbix, Grafana, LibreNMS), secure remote access, and Microsoft + Linux integration. **Constantly evolving toward SRE / DevOps**.

02 TECHNICAL SKILLS

Infra & Servers

Windows Server

Linux / Ubuntu

Active Directory

Entra ID

GPO

ADFS

LAPS

03 FEATURED PROJECTS

Apache Guacamole

Secure Remote Access

Clientless browser-based remote access gateway with reverse proxy, SSL, LDAP (AD) authentication and MFA (TOTP). Reduces attack surface by removing direct RDP/SSH exposure.

User → HTTPS/443 → Nginx (RP+SSL) → Guacamole → guacd → RDP/SSH/VNC

LibreNMS + Oxidized

Monitoring & Config Backup

Network monitoring (SNMP) and automated configuration backup, Git-ready, with Syslog/SNMP Trap and SMTP alerting. Includes an SSH wrapper for legacy devices.

Devices → SNMP/SSH → LibreNMS + Oxidized → MariaDB/Redis → Nginx

MORE DEPLOYMENTS (2025-2026)

Google + M365 + Entra ID · 2026 — SSO and AD → Google Workspace sync. GDS · Entra ID · M365 · Google Workspace · SAML	Architecture Upgrade · TOTVS RM · 2026 — ERP architecture redesign for upgrade, provisioned via Terraform (IaC). TOTVS RM · Terraform · IaC
Virtualization Migration → Hyper-V · 2025 — VMware/Proxmox → Hyper-V with conversion, replicas and snapshots (incl. Wareline App/DB container). Hyper-V · VMware · Proxmox · Replication · Snapshots	Wazuh · SIEM · 2025 — vulnerability detection and security event correlation (containers). Wazuh · Docker · SIEM
Wi-Fi NPS/RADIUS · 2025 — corporate Wi-Fi authenticated via AD. Windows NPS · RADIUS · Active Directory · FortiAP	User Provisioning · 2025 — automated AD user creation. Forms · Power Automate · PAD · PowerShell · AD
SLA Dashboard (Zabbix) · 2025 — consolidated SLA via Zabbix Services. Grafana · Zabbix Services	Proxmox LVM-Thin Monitor · 2025 — Proxmox storage monitoring. Proxmox · LVM · Bash · Zabbix
Proxmox Recovery · 2025 — environment recovery & storage expansion. Proxmox VE · LVM · Hyper-V	SQL Server · DMVs · 2025 — lock & performance diagnostics. SQL Server · DMV · T-SQL
OpenVPN in Container · 2024 — migrated VPN from pfSense to an OpenVPN container with iptables, LDAPS, routing and connections dashboard. OpenVPN · Docker · MariaDB · LDAP · iptables	Corporate Proxy · Squid + WPAD · 2024 — Squid proxy with WPAD auto-discovery (PAC via Nginx) and ACLs, in containers. Squid · Nginx · WPAD/PAC · Docker
Firewall Migration · ISA → Sophos · 2018–2021 — ISA Server 2008 → Sophos, rebuilding VPN, tunnels, routing, NAT and Web Filter. Sophos · VPN · NAT · Routing · Web Filter	Kaspersky · Endpoint & AV · 2018–2021 — environment-wide AV, with third-party patching, proxy, firewall and the full platform feature set. Kaspersky · Endpoint · Patch · Proxy · Firewall
Perfect World Private Server (pwrise.com) · 2018 — MMORPG hosted from scratch on AWS — infra, database, daemons, panels (pwadmin/iWeb), hardening and backups. AWS EC2 · Route 53 · Ubuntu · MySQL · fail2ban · OpenVPN	

04 PROFESSIONAL EXPERIENCE

Infrastructure Specialist · São Leopoldo Mandic Campinas, SP · Education & Healthcare jan/2026 — present ▶ Technical Leadership: lead 2 N3 engineers and support a team of 10 N2 professionals, from planning to delivery of infrastructure and cloud projects. ▶ Cloud & FinOps: management and automation of AWS & Azure environments, applying FinOps practices that cut costs by US\$ 26k/month. ▶ Observability: Zabbix + Grafana dashboards that raised availability of internal servers and services to 99.996%. ▶ Security: endpoint management with SentinelOne XDR and event correlation across 1,200 assets. ▶ Secure Remote Access: deployed a Guacamole gateway (LDAP + MFA), eliminating direct exposure of RDP/SSH ports. ▶ Infrastructure & Backup: Windows/Linux Server, AD, DNS, DHCP, RDS, WSUS, SCCM, ADFS, LAPS, RADIUS, TSG · Hyper-V, VMware, Proxmox, Docker · Veeam/Ahsay + DR.	
Senior Infrastructure Analyst · São Leopoldo Mandic jul/2024 — jan/2026 ▶ Technical coordination of infrastructure and cloud projects in a hybrid environment (on-premises + AWS). ▶ Administration of Windows/Linux servers, virtualization, containers, Zabbix + Grafana monitoring and SentinelOne security.	
Senior Infrastructure Analyst · Kenlo Campinas, SP · Technology / SaaS set/2022 — jun/2024 ▶ Management of physical and logical infrastructure: AD, DNS, DHCP, WSUS, IIS, File/PrintServer, Hyper-V and VMware virtualization. ▶ Monitoring via Zabbix + Grafana, BluePex/pfSense firewall, Veeam backup and asset management via GLPI. ▶ Administration of Google Workspace, Slack, Jira (Confluence, Service Management) and VoIP (Avaya/Zenvia).	
Infrastructure Analyst · Kenlo mai/2021 — set/2022 ▶ Infrastructure administration, physical and virtual servers, Zabbix + Grafana monitoring and N1/N2/N3 support.	
IT Technician · Maternidade de Campinas dez/2018 — abr/2021 ▶ N1/N2 support, infrastructure management, AD, Kaspersky antivirus, Sophos firewall, Veeam backup and Zabbix + Grafana monitoring.	

Earlier roles: Beni Car — IT Technician (2015–2018) · Merlin Video (2014–2015) · PST Electronics/Pósitron — Apprentice (2012–2014)

05 EDUCATION & CERTIFICATIONS

AWS Certified Cloud Practitioner Amazon Web Services · 2025 → 2028	Português — Native English — Intermediate/Technical 30+ courses & certifications: AWS (Observability, ECS/EKS), Docker, Kubernetes, DevOps, pfSense, Cybersecurity, Bug Bounty and Leadership — Alura, AWS, DIO, Cisco, 4Linux, KubeDev.
↵ Pursuing Next Certification AWS Solutions Architect Associate (SAA) · CKA	
Computer Networks (Associate Degree) UNIP — Universidade Paulista 2020 — 2023	
IT Technical Course Microcamp Tecnologia 2012 — 2014
